imagine ... The Triumphs And Laments Of William Kentridge

Alan Yentob joins the amazing South African artist William Kentridge as he prepares an epic frieze along the banks of the river Tiber in Rome.

Alan visits William in his hometown of Johannesburg, the inspiration for the magical hand-drawn animated films he calls 'Drawings for Projection'.

Brought up under Apartheid, Kentridge has witnessed the fragile transition to a multi-racial democracy and his art continues to reflect South Africa's turbulent times.
